CIVICGUARD FIELD DOCUMENT

CivicGuard Product Sheet

Readers, video, deployable coverage, and CivicOS in one official-fleet visibility platform.

CG-PRODUCT-001	September 2026

Visibility should work both ways.

Prepared for municipal operations, public-integrity offices, transit authorities, civic campuses, and authorized oversight partners.

REVISION HISTORY

A	September 2026	Initial release.
B	October 2026	Removed the word "discreet" from every product description.

One network. One operational picture.

CivicGuard combines solar readers, civic-campus video, real-time alerts, and auditable search for agencies that need to know where official assets are - and who has been looking.

Product	Core capability	Included
Official Plate Reader	Plate class and vehicle-signature events	Solar, cellular, installation, refresh
Civic Video	Fixed and PTZ coverage for civic facilities	Cloud search and event linking
Mobile Trailer	Rapid coverage for temporary operations	Solar, LTE, PTZ, reader
CivicOS	Live map, alerts, hotlists, and audit	Desktop, mobile, transparency export

Platform commitments

- Seven-day default event retention
- No intentional civilian plate index
- MFA required for every account
- Purpose code required for every search
- Customer-controlled partner sharing
- Exportable audit history

Deployment profile

Metric	Typical target
Reader install	Under 2 hours after site preparation
Network commissioning	10 business days after permit clearance
Availability	99.9 percent platform target
Support	24/7 network operations monitoring
Hardware	Refresh included with active subscription

If an official vehicle moved, it's on the record. So is whoever looked it up.
